Lösungen, die Funktion, Wirtschaftlichkeit und Ressourceneinsatz verbinden.
Solutions that combine function, cost efficiency and responsible use of resources.

Ressourcen im Blick

Resources in focus

Nicht jede Verpackung stellt die gleichen Anforderungen. Deshalb entwickeln wir Lösungen, die Funktion, Materialeinsatz und Recyclingfähigkeit zusammenbringen.

Packaging requirements differ from product to product. We develop solutions that bring together function, material use and recyclability.

FSC®-zertifiziert

Auf Wunsch fertigen wir aus FSC®-zertifiziertem Karton (FSC®-C137741). Produkte mit FSC®-Label sind im Sortiment gekennzeichnet.

On request we produce from FSC® certified material. Products carrying the FSC® label are marked accordingly.

RECYCLINGMATERIAL RECYCLED MATERIAL

Ausgewählte Artikel fertigen wir aus Karton mit einem Altpapieranteil von 100 Prozent.

Selected articles are produced from carton with 100 per cent recovered paper content.

PAPIERBASIERT PAPER-BASED

Unsere Food-Verpackungen werden aus Karton und Papier hergestellt. Welche Materialien und gegebenenfalls Barrieren zum Einsatz kommen, richtet sich nach den spezifischen Anforderungen des Produkts, das darin verpackt wird. Je nach erforderlichem Schutz, beispielsweise gegen Fett oder Feuchtigkeit, wählen wir die geeignete Materialkombination in Abstimmung mit Ihnen aus.

Our food packaging is made of carton and paper. Which materials and, where applicable, which barriers are used depends on the specific requirements of the product being packed. Depending on the protection required, for example against grease or moisture, we select the suitable material combination together with you.

LIZENZIERUNG LICENSING

Die Linien Enjoy Now, Easy Line und Lieblingsstücke sowie unsere Obstschalen werden trotz Fettbarriere als Papier, Pappe und Karton lizenziert, nicht als Verbundmaterial. Das senkt Ihre Lizenzkosten.

Despite their grease barrier, our Enjoy Now, Easy Line and Lieblingsstücke lines and our fruit trays are licensed as paper and carton rather than as composite material. That lowers your licence fees.
